

Dhanesh Kumar Nair

Functional Test Engineer

PROFILE SUMMARY

Manual Test Engineer with 8+ years of experience in software testing, specializing in manual, functional, and regression testing across healthcare, retail, and enterprise domains. Proficient in designing test cases, performing in-depth analysis, and executing complex user scenarios including POS and backend workflows. Proven skills in test planning, defect reporting, UAT coordination, and working with cross-functional Agile teams. Experienced in using tools like JIRA, Azure DevOps, and collaborating closely with developers and product owners. Actively contributed to quality process improvements, and passionate about ensuring seamless user experiences and testing high-impact applications.
